DISCLAIMER:

Reiki is a simple, gentle, hands-on energy technique that is used for stress reduction and relaxation. Reiki practitioners do not diagnose conditions, nor do they prescribe or perform medical treatment, prescribe substances, nor interfere with the treatment of a licensed medical professional. Reiki does not take the place of medical care. It is recommended to see a licensed physician or licensed health care professional for any physical or psychological ailment. Reiki can complement any medical or psychological care. The body has the ability to heal itself and to do so, complete relaxation is often beneficial. Long term imbalances in the body sometimes require multiple sessions of Reiki in order to facilitate the level of relaxation needed by the body to heal itself.
